Rabeeh P

Python Full stack Developer

Malappuram rabeehp008@gmail.com +91 8547270014 Portfolio LinkeDin GitHub

Profile Summary

Self-taught full- stack developer with expertise in front-end and back-end development, focused on building dynamic, user-friendly web applications. Proficient in HTML, CSS, JavaScript, Python, and frameworks such as Django and React. Experienced in API integration, database management, and responsive design. Passionate about optimizing performance and staying up-to-date with emerging technologies to deliver scalable solutions.

Main Projects

Shoespectra - E-commerce   **Live Link** ☒   **GitHub** ☒

- **Technologies Used:** Python, Django, PostgreSQL, HTML, CSS, JavaScript, AJAX.

- Built a dynamic e-commerce web application specializing in footwear, showcasing strong full-stack development skills.

- Developed robust product management features, including variant handling, size categories, and color options for flexible product configurations.

- Strengthened user interactions by integrating AJAX for seamless product status toggling and real-time updates without page reloads.

- Constructed a user-friendly admin interface for efficient management of product listings, categories, and inventory.

- Designed and implemented a wishlist functionality, allowing users to save favorite products for future reference.

- Enhanced the user experience by integrating a pagination system, enabling smooth navigation through large product catalogs.

- Built a fully responsive design using Bootstrap, ensuring seamless user experience across both desktop and mobile devices.

- Deployed the application on AWS (EC2, RDS, Route 53), strengthening performance, scalability, and high availability with cloud infrastructure.

Netflix-Clone   **GitHub** ☒

- **Technologies Used:** React, Firebase, Tailwind CSS, HTML, JavaScript

- Designed and developed a fully functional Netflix clone replicating core features of the streaming platform.

- Implemented user authentication using Firebase for secure sign-up, login, and session management.

- Built a favorites section for users to save and manage movies, using the TMDB API to dynamically fetch and display movie details like posters, titles, and descriptions.

WeatherApp   **Live Link** ☒   **GitHub** ☒

- **Technologies Used:** React.js, API, HTML, CSS, JavaScript, Axios.

- Developed a responsive weather application displaying current weather conditions such as temperature, humidity, wind speed, and weather icons for user-specified locations.

- Integrated external APIs with Axios for real-time weather data and ensured seamless functionality across desktop and mobile devices.

User Managment   [GitHub ↗](#)

- **Technologies Used:** Django, React, Redux, HTML, CSS, JavaScript.

- Built a full-stack user management system with secure authentication and role-based access control using Django and JWT, integrated with a dynamic React-Redux front-end for seamless user experience.

Mini Projects

Job-Portal   [GitHub ↗](#)

- **Technologies Used:** Python, Django, HTML, CSS, JavaScript, Bootstrap.

- Built a fully functional job portal that enables employers to post job openings and job seekers to create profiles and submit applications. .

- Strengthened the hiring process by allowing employers to review candidate profiles and resumes, improving candidate selection efficiency

Restaurant   [GitHub ↗](#)

- **Technologies Used:** React.js, API, HTML, CSS, JavaScript, Bootstrap.

- Built a dynamic web application using React.js and API integration for content management, leveraging React hooks for efficient state management and component functionality.

Skills

Front-End Development: HTML, CSS, Bootstrap, React, Redux, JavaScript, Tailwind CSS.

Back-End Development: Django, Django REST framework, REST API, Python

Databases: PostgreSQL, MongoDB

Familiar with: Postman, Git, Figma

Integrations: AWS, EC2, Route, Razorpay, Firebase, JWT

Experience

Intern   *2023 - Present*
Brototype

- Gained hands-on experience in building real-world full-stack projects, focusing on Django for backend development and React.js for frontend.

- Enhanced problem-solving skills through active involvement in project-based learning and collaborative development.

- Developed a strong work ethic by adhering to disciplined project timelines and consistently delivering high-quality, maintainable code.

Education

Higher Secondary   *2018 - 2020*
Commerce - Computer application

Certificates
